AUTODESK BIM COLLABORATE PRO TRAINING

Objectives

The main objective of this course is to teach trainee the commands and tools necessary in managing cloud-based design collaboration software. After completing this course trainee will be able to:

- ✓ To understand the fundamental concept of BIM Collaborate Pro software user interface
- ✓ To understand the workflows to work with BIM Collaborate Pro
- ✓ To display ability in design collaboration and coordination with BIM Collaborate Pro
- ✓ To demonstrate right approach in using BIM Collaborate Pro to aid regular work operation

Training Programme Day 1			
Chapter	**Topic**	**Duration**	**Time**
Chapter 1	**Introduction to Autodesk BIM Collaborate Pro** • User Interface • Account Navigation Basics • Project Navigation • Workflow for BIM Collaborate Pro	**2-Hours**	**9.00 AM - 11.00 AM**
Chapter 2	**Getting Started in Autodesk BIM Collaborate Pro Environment** • Activating the Design Collaboration Service • Setting up Folder Structure • Assigning Roles to members • Design Collaboration, Adding Teams • Docs Folder permissions VS Design Collaboration Team Permissions	**2-Hours**	**11.00 AM – 1.00 PM**
Chapter 3	**Initiating Revit Project for Cloud Collaboration** • About Revit Cloud Worksharing • Prepare Revit Model for Cloud Collaboration • Initiating Revit Cloud Worksharing • Worksharing Activity	**1.5-Hours**	**2.00 PM – 3.30 PM**
Chapter 4	**Model Collaboration** • Revit Cloud Worksharing Server to BIM 360 Docs Server • Publishing Models to BIM 360 Document Management • Design Collaboration Overview • Design Collaboration Team Space • Desktop Connector for Autodesk Docs	**1.5-Hours**	**3.30 PM – 5.00 PM**
